RE: COVID-19 status, updated

Dear Customers, Suppliers, and Industry Partners,

With regards to the COVID-19 pandemic, we want to inform you that Inrad Optics is ensuring the health and safety of our employees and associates by actively and earnestly following all best practice CDC guidelines for prevention in the workplace (<https://www.cdc.gov/coronavirus/2019-ncov/prepare/prevention.html>.) We have applied social distancing practices in our operations and implemented a connected, remote workforce where practicable. Our large facility allows us, especially our technicians, to adhere to social distancing best practices while maintaining production.

New Jersey's Governor Philip Murphy announced further restrictions on business and personal movement statewide due to the COVID-19 virus. Manufacturing companies have been deemed essential business under this new order, and as such Inrad Optics will be open with production personnel and limited staff working on-site. The balance of our workforce is working remotely to reduce the number of people in the facility at any given time.

We will continue to monitor the situation and be proactive in supporting our employees and our business during this difficult time. Please visit our website (www.inradoptics.com) contact page should you need further information or contact our sales team directly for any impact related to your scheduled deliveries.

Sincerely,

George Murray
VP, Sales & Marketing
Inrad Optics
